Quality Uptime Services Announces Key Leadership Appointment: Patrick VanTassell as Director of National Field Service.

Bethel, CT, June 24, 2024 --- Quality Uptime Services (QUS), a leading national critical-power service company, announced today that Patrick VanTassell has been hired as Director of National Field Service. Quality Uptime Services, headquartered in Bethel, Connecticut, provides UPS and battery preventive maintenance and emergency service programs for data centers across the United States and Canada.

Patrick will be based out of New York, he will be reporting to Kody Pike and working directly with the Regional Managers, and the entire Field Team. "I joined the Quality Uptime Services team, because I am passionate about continuous improvement in safety, quality, production, and customer satisfaction," said Patrick VanTassell "I am looking forward to the new role as it offers exciting opportunities to collaborate with talented colleagues, tackle challenging projects, and contribute to the company's growth and success. Additionally, the dynamic culture at Quality Uptime Services excites me, as it fosters creativity, collaboration, and professional development."

"We are very excited to have Patrick VanTassell joining Quality Uptime Services as our Director of Field Service to support our robust field teams as we continue to evolve and scale! His extensive experience in multiple service industries in and around the critical power market will add a unique perspective. Patrick has a key focus on safety and team culture that will enhance our ability to grow in all the right ways," said Kody Pike.

Patrick will play a pivotal role in ensuring that the company's field operations are efficient, effective, and aligned with business goals, ultimately contributing to customer satisfaction and business success.

About Quality Uptime Services
